Module Description

وصف المقرر :

Discourse Analysis (DA) is an interdisciplinary branch of linguistics which investigates any stretches/forms of language beyond the sentence level (in both spoken and written communication). DA also views language as 'social practice'.

This course aims to introduce students to the main theories, ideas, notions, terms and practices in Discourse Analysis. Being interdisciplinary in both content and methodology , topics of Discourse Analysis vary considerably : Discourse , Text , Communication Constraints (both system and ritual constraints), Power and Solidarity , Voice and Ideology, Stereotyping/Political Correctness, Code-switching and Negotiation of meaning, Critical Discourse Analysis(CDA), Contextual features and text analysis, Schemata , co-textual relations ,etc. critical thinking , open-mindedness, and research techniques are among the most expected learning objectives of the course . In addition, students are expected to think deeply about language and textual phenomenon and use that knowledge creatively to help them analyze texts(both fictional and expository) and various other communication events/encounters such as : formal/informal chat, online chat & SMS, sports commentary , doctor-patient conversation, TV debates, etc.

Discourse lends itself easily to a multi-teaching strategy that combines : lecturing, group discussions and seminars, field work/research projects, corpus-based tasks, etc.

Instructors are encouraged to adopt a multi-faceted method of assessment that combines: test(s), quizzes, written/spoken assignments, response papers, project work, etc.

Module Aims
