

The association of 'Tebyan' at the Zulfi college of Education holds a scientific summit

The Saudi Scientific Association (Tibyan) represented by the subcommittee at the University of Al-majmaah – the Zulfi College of Education – has organized a scientific summit entitled (Imam Mohammed Khider Hussein's endeavors in Quran Sciences) with Sheikh Dr. Mohammed Bin Ibrahim Al-Hamad; an association member and assistant professor of Islamic creed at Al-Qassim University, at Sheikh Abraham Al-hamad hall in Zulfi. And it was attended by a large number of specialists in Quran sciences from all over the kingdom, headed by Dr. Mohammed bin Sari Al-Sarii the board chairman of the Saudi scientific Association (Tibyan) and professor of Quran Sciences at the Islamic University of Imam Muhammad bin Saud, the Board directors, and a number of the association members. It was an honor to have the reciter Al-Sheikh Ibrahim Al-akhthar; the major Quran reciter at the Prophet's Mosque and His Highness Prince Saud bin Khalid Al-kabir; the association honor member, a number of postgraduate students, and academics. Sheikh Dr. Mohammed Hamad started the meeting with a brief biography of Imam Hussein Mohammed Al-khider in which he emphasized his intellect and premature genius, his scientific and professional life until he became the head of the Al-Azhar Institution. He also talked about his works on Quran sciences, his defense of God's book, and his interest in interpretation. Dr. Mohammed Hamad recited some of Imam Muhammad Al-khidhr's interesting and impressive poetry. He then allowed questions and interventions on the subject. By the end of the meeting he expressed gratitude to everyone and delivered the association Shield to Sheikh Dr. Mohammed Bin Ibrahim Al-Hamad, as a gesture of gratitude for his support of the Association wishing him all the success.
